TECH SKILLS

Languages: JavaScript (ES6+), Ruby, HTML5, CSS3, SQL

Frameworks & Libraries: Ruby on Rails, React, Tailwind CSS, Bootstrap

Databases & Storage: PostgreSQL, Active Record

Tools & Platforms: Git, GitHub, RESTful APIs, Render, Netlify, Postman

TECHNICAL PROJECTS

Musicloggr | Full-Stack Decoupled Social Music App

Live: musicloggr.com | GitHub: github.com/DaveBett/music_log

Tech Stack: Ruby on Rails (API), React, CSS, PostgreSQL, Devise, JWT, RESTful API, Render, Netlify

- Architected a decoupled full-stack application consisting of an independent Rails API backend deployed on Render and a React SPA deployed on Netlify.
- Implemented stateless, secure authentication and authorization using Devise and JWT (JSON Web Tokens) to protect API endpoints and manage client sessions.
- Integrated the external MusicBrainz REST API on the frontend/backend to query, retrieve, and cache album metadata dynamically.
- Designed and maintained relational database schemas, handling development on MySQL and production migrations on PostgreSQL via Render.
- Configured automated deployment pipelines with continuous delivery across Netlify and Render.

Personal Portfolio & Web Applications

Live: davide-betterini.com | GitHub: github.com/DaveBett/personal-website

Tech Stack: React, Tailwind CSS, Git

- Designed and published a responsive portfolio website showcasing production projects, GitHub repositories, and interactive technical write-ups.
- Implemented clean, modular component structures with semantic HTML and modern CSS, adhering to accessibility (a11y) standards.
- Managed source control workflows with Git, documenting project architectures with comprehensive technical READMEs.

EDUCATION AND CERTIFICATES

The Odin Project | Full-Stack Ruby on Rails Curriculum

Self-Paced Immersive Software Engineering Program

- Rigorous open-source curriculum focusing on full-stack development: Ruby, Ruby on Rails, JavaScript, React, PostgreSQL, REST APIs, Git workflows, and Test-Driven Development (TDD).

Mayerfeld Practicum Program® | Frontend Development

Professional Training & Practical Project Program

Conservatorio di Musica Licinio Refice | Frosinone, Italy

Bachelor of Music (B.Mus.) – Electric Bass (Pop/Rock) – 110/110

- Completed higher education degree focused on pattern recognition, rigorous independent practice, ensemble collaboration, and performance under pressure.
